CUSTOM WINDOWS + DOORS

PGT doesn't just build impact windows and doors. They have partnered with Florida officials to help write the country's most stringent code requirements, and hold the most Miami-Dade certifications in the industry. That, along with our unmatched reputation for quality, performance, and service, is why millions of families rely on PGT. The vinyl and aluminum products offer protection from hurricanes and other extreme weather, and better security against would-be intruders, noise pollution, UV rays, and more.

	CLASSICVUE MAX™ ALUMINUM	WINGUARD® ALUMINUM
Description	ClassicVue Max™ offers outstanding non-impact products to complete your home. These quality, heavy-duty aluminum windows and doors are engineered with mechanically fastened corners and durable hardware to provide beauty and easy maintenance for years to come. Our entire ClassicVue Max™ line leverages the technology of our WinGuard® Aluminum collection.	WinGuard® Aluminum impact resistant windows and doors help protect your family from the everyday and the once-in-a-lifetime, including hurricanes, would-be intruders, outdoor noises, and more.

Impact Resistant Windows & Doors

WE'RE STRONGER™

CGI was the first hurricane window manufacturer in the United States to offer a line of impact windows that meets the Florida Building Codes for High Velocity Hurricane Zones, such as Miami-Dade and Broward County. Since 1992, CGI has been providing vinyl and aluminum residential windows to customers. Whether it is new construction windows or replacement windows, CGI offers an array of designs and colors. As a leader in the impact window market, CGI gives you durable new construction and replacement windows without having to compromise style. CGI residential windows are used in new construction and as replacement windows and have easily passed the Miami-Dade County Large Missile test and have proven to withstand winds of nearly 300 mph.

SPARTA (ALUMINUM)	
Description	
	The option for homeowners looking to upgrade to hurricane impact windows and doors at an affordable price. With Sparta, homeowners can have 24/7 storm-ready protection for their homes and leave behind cumbersome plywood or storm shutters. CGI has long been on the forefront of protection. To better meet the needs of all of our customers, CGI is proud to offer Sparta, our hurricane impact windows and doors value-custom lines. Now you can be protected from the storm with our impact resistant windows and doors. Be impact-resistant. All at a price that makes it easier than ever.

Plastpro's fiberglass entry doors combine the beauty and elegance of wood, but require less maintenance and have a longer lifespan. Offered in a variety of rich grain textures, our doors require less maintenance, offer longer warranties, and are more energy efficient than traditional wood or steel entry doors. The Smooth Doors are made with a pre-pigmented white skin, which features a classic, smooth surface. The Smooth Series incorporates the largest design selection and glass options. The combination of both gives you the freedom to create a door that truly represents your style.
