#### Finish Type

Standard: 1-year warranty

Kynar: 5-year warranty

Chromate: 10-year warranty

# Impact Bahamas

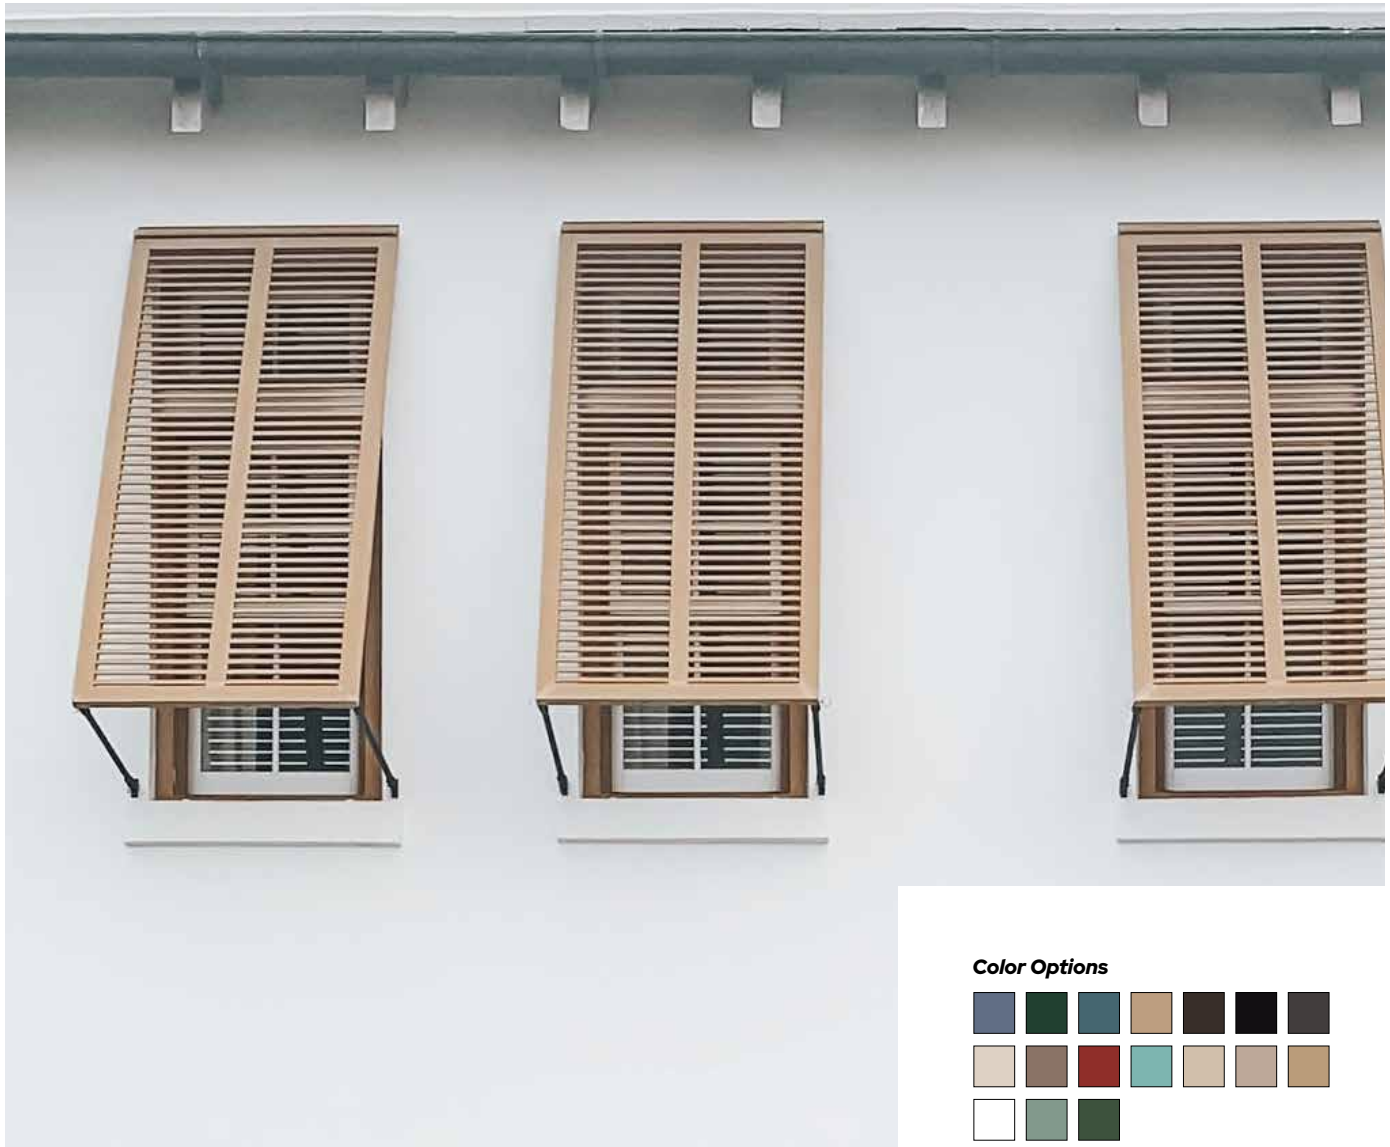

Invoke the essence of the islands on your property while providing custom manufactured impact protection. One-piece louvered impact Bahama shutters are top hinged and mounted above the exterior of a window. This popular shutter can be easily adjusted to the angle desired and are also available in a decorative variation.

## WHY CHOOSE IMPACT BAHAMA SHUTTERS?

Even in the "open" position, Bahama shutters provide permanent privacy and shade inspired by the tropics. Less light curbs the sun's heat and passes along savings in long-term energy costs. With many standard colors to choose from, custom colors are also available. These durable aluminum shutters are welded and powder coated to ensure strength and longevity.

## HOW TO DEPLOY IMPACT BAHAMA SHUTTERS

Upon initial installation, Bahama shutters are typically set to a 45-degree angle. Unfastening the thumb screws, releasing the telescoping arms, and securing the shutter to the structure can prepare any window to be storm ready by one person.

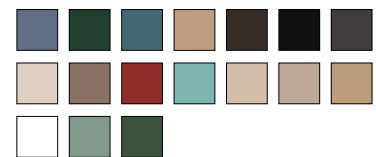

# Decorative Bahamas

These popular shutters embody the vibe of relaxed island charm. One-piece louvered Bahama shutters are top hinged and mounted above the exterior of a window. They can be easily adjusted to the angle desired and are also available in an impact variation.

## WHY CHOOSE DECORATIVE BAHAMA SHUTTERS?

Even in the "open" position, Bahama shutters provide permanent privacy and shade inspired by the tropics. Less light curbs the sun's heat and passes along savings in long-term energy costs. With many standard colors to choose from, custom colors are also available. These durable aluminum shutters are welded and powder coated to ensure strength and longevity.
