Kynar: 5-year warranty

Chromate: 10-year warranty

# Impact Colonials

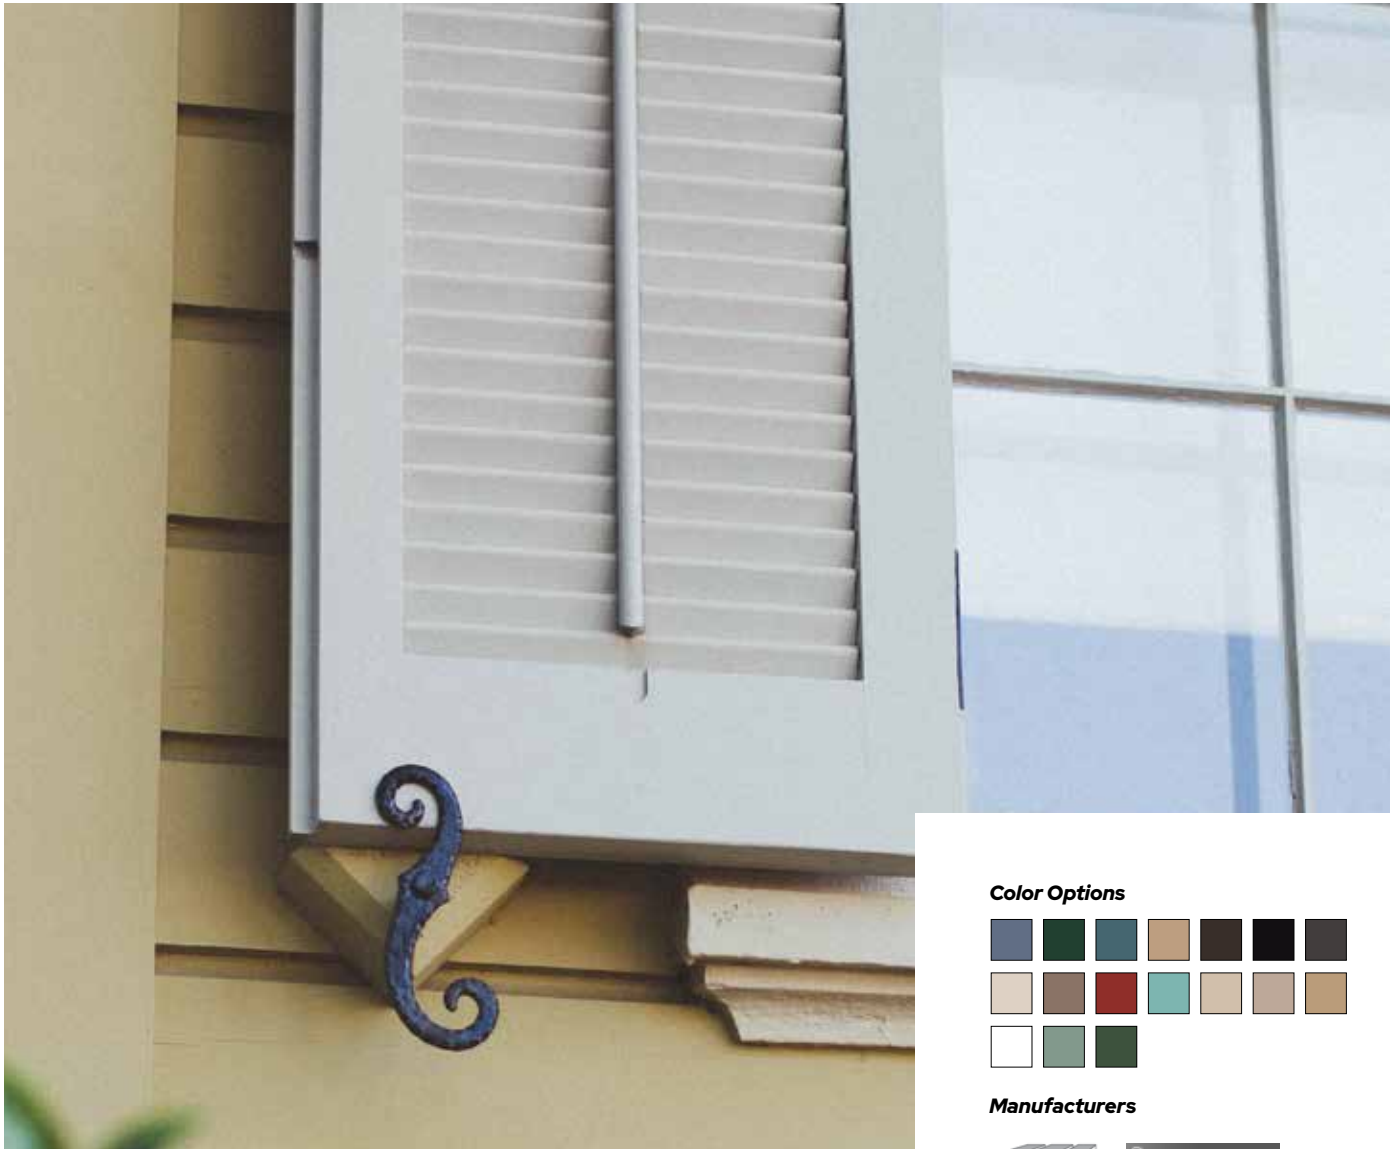

Stylish louvered shutters attach to the wall beside each window with a wall hinge and fold together to protect the glass when in the closed position. Impact colonial shutters are manufactured for maximum storm protection and are also available in a decorative variation. Both add an elegant aesthetic charm and long-lasting curb appeal. All aluminum construction is welded and powder coated with a low-profile frame.

## WHY CHOOSE IMPACT COLONIAL SHUTTERS?

Charming and elegant impact colonial shutters combine the warm look of natural wood with the longevity and strength of aluminum. There are many standard colors to choose from and custom colors can be matched to any color from a major paint manufacturer.

## HOW TO DEPLOY IMPACT COLONIAL SHUTTERS

Permanently affixed beside the windows, these shutters enable any opening to quickly be made storm ready by one person. Before a storm arrives, the shutters are simply pulled closed and locked after a horizontal storm bar is applied to protect your property from impending danger and damage.
